TECHNICAL SKILLS

- - Languages & Tools: SQL, Python (Pandas, NumPy, Matplotlib), Excel
- - Data Visualization: Tableau, Power BI
- - Cloud & Big Data: AWS S3, AWS Athena, Apache Airflow
- - Databases: MySQL
- - Workflow & Ops: JIRA, SPARC, SLA Tracking

EDUCATION

Bachelor of Technology in Computer Science & Engineering
Future Institute of Engineering and Management
2018 – 2022

PROFESSIONAL EXPERIENCE

Programmer Analyst, Cognizant

Kolkata, India   April 2023 - Present

- *Developed and supported Tableau dashboards for Gilead Pharmaceuticals, ensuring adherence to UI/UX standards and client specifications.*
- *Proactively monitored and resolved Tableau extract refresh failures, minimizing data disruptions.*
- *Managed incident and task tracking via SPARC and JIRA, ensuring timely resolution of issues and efficient project workflow.*
- *Led the full dashboard development lifecycle, including UAT, production migration, and performance optimization.*
- *Implemented and executed test cases to validate dashboard functionality and ensure data accuracy.*

Programmer Analyst Trainee, Cognizant

Kolkata, India   June 2022 - March 2023

- *Played a key role in maintaining the operational health of over 50 data pipelines through proactive monitoring and troubleshooting of Apache Airflow DAGs, reducing average DAG failure rate by 15%.*
- *Assisted in resolving over 30 data pipeline issues by performing MySQL database fixes and providing client support, achieving an average resolution time of under 4 hours.*
- *Contributed to the successful migration of over 200 data source files between environments using AWS S3, following established procedures and ensuring zero data loss during the migrations.*
- *Conducted data validation within AWS Athena on over 100 data loads to ensure data accuracy, including row count validation (aiming for 100% match) and discrepancy analysis, identifying and rectifying an average of 2% data discrepancies per load.*
- *Employed client ticketing systems to document and track all identified pipeline issues, enhancing operational transparency and contributing to a 95% adherence to SLA (Service Level Agreement) for issue resolution.*

Intern, Cognizant

Kolkata, India   February 2022 - June 2022

- *Completed Internship in Data Science successfully where learned about various tools and technologies used in Data Science field like SQL, Python, etc.*

CERTIFICATIONS

AWS Certified Cloud Practitioner

Microsoft Certified: Power BI Data Analyst Associate

CO-CURRICULUM

Completed "Digital Nurture" On Campus Internship by Cognizant, got selected as Genc Elevate
